RE: Notice of *Ex Parte* Communication
*Regarding Promoting Technical Solutions to Combat Contraband
Wireless Device Use in Correctional Facilities- GN Docket 13-111*

Dear Ms. Dortch,

My name is John Fischer. I am the CEO of Try Safety First, Inc. I am submitting this letter to you in accordance with Section 1.1206 of the FCC's rules, 47 C.F.R. § 1.1206. The purpose is to advise you that on Friday, February 17th from approximately 10am – 12:15pm, my colleague Rob Smyjunas and I met with FCC personnel Brendon Carr, Rachel Bender, Suzanne Tetreault and Zenji Nakazawa. The meetings took place on the 6th and 8th floors of the FCC building address listed above.

The purpose of the meeting was to introduce, demonstrate and discuss Try Safety First latest technology advancements to completely eliminate contraband cell phones in prisons.

More specifically, we demonstrated that by shutting down the phone completely (i.e. actually turning it off) **ALL** nefarious acts for which contraband phones are used will be eliminated. Other systems which only stop talk or text can and will still be used to video broadcast escape routes, inmate drug usage, torture, rape and gang initiation, affiliation and retaliation all for the purpose to extort, blackmail and generate internet revenue. Our intent in showing this was to clearly differentiate our technology from any other system on the market.

Should you have any further questions concerning this meeting or our technology, please contact me at your earliest convenience.

Best regards,

/John J. Fischer /

John J. Fischer, CEO
Try Safety First, Inc.
